By combining the lines Barcelona-Civitavecchia and Brindisi – Greece, Grimaldi offers the Long Bridge solution:

Trucks traveling from Greece or Turkey to Spain, Portugal or France may pay an unique discounted tariff for 2 maritime crossings: Greece >Brindisi + Civitavecchia > Barcelona or viceversa

Passenger ships

- High speed
- Flexible passenger/freight ferries
- High quality facilities and entertainments onboard

Cargo ships

- 4000 linear meter carco capacity
- Great capacity for unaccompanied trailers
- 12 driver places available

Our approach in the development of the Motorways of the sea

Enlargement of our network

Attraction of new traffics and opening new lines creating synergies among the Grimaldi, Finnlines and Minoan routes

High frequency of our connection

Efficiency in the logistic rotation of the vessels

Investments in the building of new vessels

Increase in the loading capacity and safety of the vessels
